

# PressureGuard® Span-Care® Convertible

made with  
**LifeSPAN™**

bleach-resistant stretch fabric  
(see page 67 for details)

## Performance, comfort and flexibility — with or without power!

The Span-Care® convertible air therapy surface is engineered to empower busy caregivers with an ideal blend of high-end performance and trouble-free ease of use.

In non-powered mode, use the Span-Care convertible for pressure injury prevention in at-risk patients, early intervention of existing pressure injuries, or when a step-down surface is called for. Its self-adjusting system of synchronized air cylinders and pressure relief valves provide the correct level of immersion and envelopment for any user.

Add the simple, digital control unit when powered treatment modalities are necessary. Adjustable comfort settings, audible low pressure alarm and a timed auto-firm mode ensure maximum usability.

In either mode, the Span-Care convertible delivers an unmatched combination of extreme patient comfort, crucial safety and stability, proven pressure management and maintenance-free reliability.

<sup>1</sup>In situations where positioning on the pressure injury cannot be avoided (e.g. the individual has multiple injuries on multiple surfaces), limit the amount of time the individual is positioned on the injury.

### Therapy Provided

- ✓ Non-powered (Air) Reactive Pressure Redistribution
- With control unit added:*
- ✓ Alternating Pressure
- ✓ Powered Pressure Redistribution

### QUICK FACTS

#### Indications:

- Treatment of Stage 1-4 pressure injuries
- Patient can't/won't reposition frequently
- Can be positioned off the pressure injury in at least 2 positions<sup>1</sup>
- Prevention for high risk patients

#### Key Advantages:

- Minimized shearing through Geo-Matt® surface geometry and Shear Transfer Zones® on bi-directional stretch cover
- Minimized risk of falls and bed entrapment through Safety Edge™ bolster design
- Flexible treatment modalities, including alternating pressure and powered flotation
- Easy-to-use, easy-to-connect control unit

Item #	Description
SC753629	75"L x 36"W x 7"H
SC803629	80"L x 36"W x 7"H
